BANKERS:

1

Vision

To help our clients realize their Telecommunication objectives using the most cost effective options.

2

Mission

To provide high quality services that combine performance with value pricing, while establishing a successful relationship with our customers.

3

Core Values

Our corporate identity defines the kind of company we are now and the one we need to be in the future. Central to that identity is a commitment to create ways to help customers thrive in a changing world. To do this we must live our brand values;

- ☑ **Trustworthy** - we do what we say we will
- ☑ **Helpful** - we work as one team
- ☑ **Inspiring** - we create new possibilities
- ☑ **Straightforward** - we make things clear
- ☑ **Heart** - we believe in what we do

We hereby introduce our company Adopnet Integrated Services Ltd, a company registered in 2008 to engage in a wide range of services as a Telecommunication servicing and Broadband solution provider for Telecommunication industry.

We are well versed in Planning and Implementation of Turnkey Projects; including, Right - of - way Approvals, Project Management, Project Implementation, Testing, Networking Operations and Maintenance Services Implementation of Fiber Optics Networks for broadband solutions using a crop of highly talented and experienced personnel in all aspect of the job.

Adopnet Integrated Services Ltd. is owned and managed by Nigerians with an experience of over ten years acquired from the ICT and Telecommunication industries.

We can also assist you in analyzing, determining and achieving your set objectives and goals, after which we shall offer you our professional advice on our assessment of your needs.

We are a forward looking company that is in tune with developments in the ICT and Telecommunication industries and we are very confident that we can help our clients realize their objectives using the most cost effective options.

We look forward to opportunities of working with you and putting our experience at your service now and in the future.

Yours truly,

for: Adopnet Integrated Services Limited

Engr. Ayobami Olipede
Managing Director

Adopnet Integrated Service Limited have expertise in design, implementation and maintenance of:

1) FTTH AND FTTH SOLUTION

Adopnet Integrated Services Ltd. is a leading construction company in the market and a benchmark in the area of FTTH and FTTH solutions (end-to-end): Turn-key and Built to Suit. Planning, design and consulting in FTTH networks **Adopnet** engineering teams is highly qualified and specialized in the field of FTTH, has been actively involved in all major projects of telecoms operators.

Specialized areas:

- Design and development of architectures for FTTH networks;
- Planning, design and calculation of FTTH networks;
- Technical consultancy on FTTH (engineering, construction, installation, etc
- Construction and installation of FTTH networks, Infinity Networks has extensive experience in the construction and installation of fiber optics networks, particularly FTTH- Fiber to the Home

Specialized areas:

- Deployment of FTTH networks, On Time On Cost;
- Installation and configuration of routers, ONT's and OLT's;
- Attenuation, reflectance (ORL) and reflectometry (OTDR) tests;
- FTTH LAN Network;
- Go Live of the FTTH network.

Operation and maintenance of networks FTTH

- FTTH preventive and corrective maintenance:
- Equipment integration:
- Network operation:

2) FIBER OPTIC CABLE (END TO END)

These include design, planning and implementation of Turn-key projects; including characterization, Right - of Way Approvals, Project Management, Project Implementation, Testing, Network Operations and Maintenance Services.

3) COPPER NETWORKS

Design, planning and implementation of copper access networks, turn-key projects; contruction of external line plant (ELP), for Underground and overhead terrestrial 'last mile' cable network.

OUR MAINTENANCE SERVICES

Adopnet Integrated Services Ltd., provides 24 hours First Line Maintenance (FLM) services to our clients an optional 24 hours FLM (First Line Maintenance) service for the Fiber optic infrastructure which includes but not limited to the following:

- Preventive Maintenance Program
- Corrective Maintenance
- Planned
- Emergency
- Scope (contd...)

Adopnet Integrated Services will liaise with our clients for the following reasons:-

- Mobilization to site
- Carry out fiber fault locate
- Repair the fault within the agreed time frame with strict adherence to standard engineering practices

Final report and documentation including digital pictures will be provided to our clients at the end of the repair works.

REPLACEMENT OF PARTS

Optical Fiber Cables shall be replaced from our client's warehouse as required; all such replacements shall be fully documented

Such parts shall be of standard quality and same or higher capacity with the fault (or failing) part being replaced.

Issuing of material for the replacement of faulty material will be carried out by our clients in due time according to the final material/repair report submitted by Adopnet Integrated Services.

MAINTENANCE WINDOW

Normal operational activities shall be within the hour of 8.00am - 6.00pm (Mon. - Sat.)
While emergency operational activities shall have no time limitation.

MAINTENANCE SOLUTION

In order to process incoming technical and operational inquiries according to urgency, our clients and Adopnet Integrated Services Ltd. mutually assign priorities as follow;

- ❶ **Level 1** - An urgent problem that has been escalated to cause disruption in service 2 hours - 4 hours confidential Adopnet services
- ❷ **Level 2** - A problem that does not restrict operation service. 2 hours - 8 hours.

NON-NEGOTIABLE PRODUCT AND WORKPLACE SAFETY (HSE Policy)

As a permanent and priority agenda item at all operational meetings, safety comes first in our company. Our services are tailored towards safe operation. We diligently initiate maintain and comply with the company's safety program, and are committed to safeguarding natural resources and our global environment.

OUR QUALITY STATEMENT

In the eyes of the customer, **Adopnet Integrated Services** have a reputation of being of higher quality. We are accountable for ensuring that quality is built into everything we do. Superior performance and quality ensures future trust and confidence in our services.

PASSIONATE CUSTOMER CARE

Our customers come first. We believe that every interaction, internally and externally is a customer interaction that demands professionalism and respect. We believe we can make a difference in the lives of our customers.

We believe understanding our customers and listening to their unique needs ensures we deliver customer-focused services.

RAPID CONTINUOUS IMPROVEMENT

We are constantly striving for rapid continuous improvement; we are never satisfied. We are energized by change, and continuously thinking ahead and anticipating how we can better serve our customers. We are always examining how we can do it better, and engage constructively with those associated with the company to gain additional knowledge and learn from past mistakes.

MANAGEMENT PHILOSOPHY

The management operates under the four principles of Integrity, Insight, Vision and Solution.

- ✓ Integrity forms the basis of our relationship with our clients, customer and the society.
- ✓ Insight enables us to serve our clients and customer with advanced technology as well as new range of services
- ✓ Vision prepares us to look ahead into the future and act swiftly and courageously towards the ever changing market we are in.
- ✓ Solution to the earnest desires of our clients with the support of our healthy, unrelenting and reliable workforce.

ENGR. AYOBAMI OLIPEDA (MANAGING DIRECTOR)

Engr. Olipede is the Managing Director of Adopnet Integrated Services Limited. He is particularly involved in Project Management of the various fiber optics projects which includes client relationship, vendor management, project schedule, quality and project implementation. He holds a Bachelor of Science Degree in “Electrical Engineering” and has worked with Ericsson Nigeria Limited for six years in rectifier installations and BTS site build. He also a Senior Management Program in Leadership Skills. Some of the fiber projects he participated are shown in the pictures below:

TUNDE AFOLABI (CHIEF TECHNICAL OFFICER)

Mr. Afolabi, a Certified Telecoms Network Specialist, is the Fiber Optics Specialist working on optical network design and transmission configuration especially FTTH, Enterprise Solutions etc. He is particularly involved in managing all projects which includes; client relationship, vendor managing, project scheduling, budgeting, quality assurance and project implementation. He attended Triple Play Fibre School, South Africa and has taken professional training and certifications in Fibre Optics and Project Management and currently pursuing higher degree in University of Cape Town, South Africa. He was involved in the project supervision and implementation of the various MTN Fibre Optics projects in Nigeria and South Africa.

ENGINEER TUNJI BABALOLA (EXECUTIVE DIRECTOR)

B.Sc.. Civil Engineering OAU.

He is a COREN registered engineer. A member of the Project Management Institute. He is a Nigerian trained engineer with over fifteen years experience in both civil engineering and building projects. He has worked extensively in the design and construction of numerous civil engineering projects in the country. He has managed and coordinated turn-key BTS and OFC rollout program for major telecommunication organizations in the country. He has also attended executive management training at the Lagos Business School.

ADENUSI OLUWAYINKA STEPHEN (PROJECT MANAGER)

Adenusi Oluwayinka Stephen is the Implementation Manager of **Adopnet Integrated Services**. He is particularly involved in overall Project Implementation in all project executed by the company. He has worked in different capacities as Project Manager for both CDMA & GSM Projects for clients across the country till date.

OLADIRAN OLADOSU ANTHONY:

Anthony holds HND Electrical / Electronic Engineering with over 6 years working experience in Fibre Optics field work with notable companies such as SIEMENS, CONCEPT POINT, TELESUPRECOM, WELLFIELD before joining Adopnet Integrated Services Limited.

MR. AYOTUNDE AYODEJI

Ayotunde holds B.Sc. in Electrical Engineering. He has 6 years of working experiences in Fibre and Equipment Maintenance having worked in DCL Telecomms Limited before joining Adopnet Integrated Services Ltd.

BOLAJI JOHNSON

Is an OND holder. He has previously worked as a Maintenance Team Lead with Teletok Nigeria Limited before joining Adopnet Integrated Services. He has 3 years working experience.

MRS. DOROTHY OLIFEDE

Dorothy holds B.Sc. Degree in Industrial Mathematics with various professional courses in Fibre Optics. She has 3 years project work experience before she joined Adopnet Integrated Services Ltd as the company Secretary.

TECHNICAL TOOLS AND MACHINERIES

Adopnet Integrated Services Limited has come tools and machineries in possession and can mobilize some of the following:

1. Project Vehicles

Hiab Truck, Loading Trucks, Jeep, Car, Pick-up Van.

2. Fibre Tools Equipment

Splicing Machine, OTDR Machine, Power Meter, Wheel Measurement, GPS Camera

3. Civil Work Tools and Equipment

Compressor Machine, Concrete Mixer, Concrete Vibrator, Water Pumps, Asphalt Cutting Machine, Thrust Boring Machine, Digger Tractor, Fibre Blowing Equipment etc.

4. Traffic Warning

Cones, Signs, Tapes, Reflectors etc

FEW OF OUR PAST PROJECTS

CLIENTS	PROJECT	STATUS	LOCATION
BROADBASED COM. LTD.	Fiber To The Home (FTTH)	Completed	Prime Water View, Lekki
